

The **PharmaScienceHub** TechTalks, is a series **spotlighting cutting-edge technologies available** across the Saarland research landscape. Despite major investments in infrastructure at Saarland University, HIPS, and other partner institutes, many of these powerful resources remain underutilized.

PSH TechTalks aim to change that by **making advanced instrumentation more visible and accessible**, fostering collaboration and innovation across disciplines.

<b>Title</b>	<b>Unlocking Genomes: Introduction to ESF &amp; NGS Sequencing Facilities</b>
<b>Speaker(s)</b>	Julia Schulze-Hentrich Gilles Gasparoni Nicole Ludwig
<b>Abstract</b>	Get to know the EpiGenomics Sequencing Facility Saarbrücken and the NGS Sequencing Facility Homburg—two key platforms offering cutting-edge epigenomic and transcriptomic technologies. Learn how these facilities support your research with services from bulk RNA-Seq to single-cell and spatial genomics.

---

<b>Date</b>	<b>June 24, 2025</b>
<b>Time</b>	<b>12:00-13:00</b>
<b>Venue</b>	Seminar Room 0.27 @Helmholtz Institute for Pharmaceutical Research (HIPS)
<b>Link</b>	<b>Join the talk live on Zoom</b> Access details will follow soon
